

Is your child struggling and you don't know why?

Ask about
FASD

FASD is more common than autism, but often missed. It may affect more than 2 million people in the UK

FASD challenges include:

- Memory
- Learning
- Sensory processing
- School
- Social skills
- Behaviour
- Hyperactivity
- Sleep
- Hyperactivity
- Attention
- Communication
- Motor skills
- Consequential thinking
- Maths/time/money
